Overview:

Purpose

This document identifies the technical Requirement and Design for the Info sharing Application **CFP Vendor View**.

Business Users Overview

Business User Role / User Group	Location	Subject Matter Knowledge	Technical Knowledge	Other Observations, if any

Technical Requirements:

TR ID#	BR ID #	Description
TR 1.0	BR 1	1. If the logged in user is in Active status within 346P then in the screen only Shipping Instructions will be displayed instead of FOB Instructions. 2. For this we have to check the GSO_VENDOR_STATUS column value of VE346P table whether it is "A" (for Active status). 3. A Boolean flag in DCPOViewPurchaseOrderBO.java is required to check the value and display it in the corresponding JSPs accordingly.
TR 2.0	BR 2	1. If the logged in user is in Active status within 345P then in the screen only Shipping Instructions will be displayed instead of FOB Instructions and FOB will be displayed as Incoterms. 2. For this we have to check the GSO_STATUS column value of VE345P table whether it is "A" (for Active status). 3. A Boolean flag in DCPOViewPurchaseOrderBO.java is required to check the value and display it in the corresponding JSPs accordingly.

Data Requirements:

User Interface Requirements

Performance Requirements:
NA

Software Components Impacted:

SQL Query:

SELECT GSO_STATUS FROM {0}VE345P, {0}VE346P WHERE VE346P.GSO_NUMBER = VE345P.GSO_NUMBER AND VENDOR_NUMBER = ?
SELECT GSO_VENDOR_STATUS FROM {0}VE346P WHERE VENDOR_NUMBER = ?

Assumptions, Constraints and Dependencies:

ID	Related BR ID#	Assumption Description
RA 1.0		

Impacted File List:

SL. No.	Impacted File Name	Impacted Methods Name
1	ViewCentralDirectPO.jsp	
2	ViewPO.jsp	
3	FOBInstructions.jsp	
4	ViewPODownload.jsp	
5	ViewPrintable.jsp	
6	DCPOViewPurchaseOrderBO.java	isActiveGsoVendor(), isActiveWAGGSO() [new methods]
7	DCPOPurchaseOrderDH.java	gsoVendorStatusInfo() , gsoStatusInfo() [new methods]
8	DCPOSQLQueries.properties	
9	DCPOConstants.java	
10	DCPOSQLConstants.java	

Technical Flows or Diagrams:
